The admission committee ensure transparency in the admission process. The institution provides an annually updated . College prospectus containing information regarding the courses available in the college and their intake capacities along with other information relating to the admission process. Students are admitted strictly according to University / State Government rules.

6.4 Welfare schemes for	Teaching	Loan , Medical, GIS Allowance
	Non teaching	Loan , Medical, GIS Allowance
	Students	Free ship, Scholarship, EBC, PTC, STC, Meritorious, Minority students Scholarship

6.5 Total corpus fund generated

6.6 Whether annual financial audit has been done Yes No

6.7 Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	yes	Join Director (HE)	Yes	Principal of the college
Administrative				

6.8 Does the University/ Autonomous College declares results within 30 days?

For UG Programmes Yes No

For PG Programmes Yes No

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

The institution is affiliated to Sant Gadge Baba Amravati University Amravati and follow its rules and regulation regarding examination reformation.

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent

colleges?

N.A..

6.11 Activities and support from the Alumni Association

The alumni association holds meetings twice in a year to collect relevant information regarding progression.

It interact with students to inspire and motivated them and provide career counselling .

6.12 Activities and support from the Parent – Teacher Association

The parent – Teacher meeting is held once in a year or whenever to solve problems regarding the students, to gain feedback and to appraise the parents of the student academic performance and for counselling. The Tutor –Ward system also ensures that the parents and teachers are in contact for the benefit of the ward.

6.13 Development programmes for support staff.

Computer Literacy Programme.

6.14 Initiatives taken by the institution to make the campus eco-friendly.

- Tree Plantation in campus
- Water harvesting
- Regular cleaning and maintenance of surrounding.

Criterion – VII

7. Innovations and Best Practices

- 7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

Our college introduce-

1. Tutor Ward system and
2. Women Awareness Programme.

College has introduced tutor ward system for the students almost all the teachers and students are involved in this activity. The objective of this activity is to encourage to the students for the knowledge enrichment, motivate them the sports and cultural activities and solve their personal problems through the proper guidance of the teachers that encourage students to acquire knowledge and education.

College has also started “ Women Awareness Programme” for the girl students of the college various activities are conducted under this programme to update the knowledge of girl students and encourage to lead fearless life .

Students have made some nests for wild birds and also made provision of water and hanged it on the branches of the tree.

- 7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

Academic calendar has been prepare in the beginning of the session and actions are taken accordingly.

Two best practices were introduced under Tutor- Ward System and Women Awareness Programme are executed successfully.

1. Ku. Harshali Madhukarrao Patil secured First merit and Gold Medal in PG Geography.Examination S.G.B.U. Amravati .
2. Students were felicitated for securing highest marks at college level.
3. Students of the college are participated in sport & games tournament at University level.
4. Research papers are published by the faculty members in various journals and conference.

- 7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

- “ Tutor-Ward System” and
- “ Women Awareness Programme”

****Provide the details in annexure (annexure need to be numbered as i, ii,iii)***

7.4 Contribution to environmental awareness / protection

- College organized environmental study tour at nearby village Rawala for the students..
- N.S.S. unit conducted the tree plantation programme in the college premises and surrounding area. Every care is taken to maintain the tree in the NSS regular activity.
- Swachhata Abhiyan is organized to clean college premises and all the students and teachers participated in the programme.
- Less use of paper and reuse of one side blank paper in the office. Similarly unnecessary use of electricity is strictly prohibited in the college.

7.5 Whether environmental audit was conducted? Yes

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

Nil

8. Plans of institution for next year

1. Parent- Teacher Meet
2. Extra classes for slow learners.
3. Personality development programme for the students.
4. Gender equality and Fundamental rights for girl students would be undertaken.

Analysis of the Feedback.

The feedback for the year 2015-16 was analysed and the observation have been stated below:

The feedback on curricular and facilities was obtained from the students. Similarly feedback was also obtained from the faculties, alumni and the parents as well. Ten samples from each class were culled out. The Questionnaire containing fourteen different questions covering curricula, grasping, teaching skill of faculties, facilities in laboratories, sports facilities and opportunities, services by administrative office for the students, library services, the programme conducted by NSS unit, Environmental awareness programme, services of career counselling cell, extracurricular activities in the college, guest lectures and guidance programme regarding syllabus, students staff co ordination. All these questions were having multiple choice answers to seek crystal clear, fair responses from the sample. The questionnaires, neatly filled in were scrutinized and data was furnished. The suggestions are given by the students are discussed in staff meeting, and implemented if necessary. For example: ceiling of the college auditorium has been repaired for the better sound quality in the programmes held. The vehicle parking facility is made available in college campus for the students and the staff. Above facilities are provided on the suggestion given by the students.

Similarly the committee sought the feedback from the guardians for the session. Questionnaire containing some questions dealing with infrastructure, teaching aids, availability of study material, facilities in the campus, organization of curricular, extracurricular and extension activities, approach of the teaching and non teaching staff etc. Ten sample were collected and analysed and actions taken accordingly in the staff meeting. Fire extinguisher is made available and special coaching of computer is being given to the students on the suggestions of parents.

Two Best Practices of the Institution.

Best practice I

Title of the Practice:-

Tutor-ward systems

1. Goals and Objectives :-

- Point out the performance of students.
- To adhere personal contact with students.
- To secure a detail information about students.
- To look after the problems coming in way of seeking higher education.
- To encourage students for higher education and guide them from career point of view.

2. The context:-

Holistic development of students is brought about by imparting need-based knowledge, inculcate moral values and developing up-skills in order to produce ideal citizen, it is also the pious mission of our institutions. Equity and transparency in the admission process leads to admitting number of students from divergent section of community. As the college situated in rural area students seek admission from nearby rural and tribal community. Therefore it finds very difficult to check out the overall performance of the students as they are large in numbers so to point out the performance of students in academic, social, cultural, intellectual basis, the principal allotted 25 to 27 students to each faculty member including Principal himself, Director of Physical Education and librarian. The principal of the college made nine batches as teacher-student ration is 1:25 so each teacher has to look after allover performance of 25 students out of 250. Therefore one teacher finds easy responsibility to keep special attention to only 25 students. The faculties have to check out the students response to attendance, unit tests and terminal examination, his performance in social and cultural activities.

3. The Practice : -

If students fail in attendance, Attendance committee of the college communicate his/her parents through letter and call the parents in the college to know the reason of concern frequent absence of his ward. Special register is maintained for this cause.

In addition to this teachers personally visit to the residence of absent student and importance of education, attendance, unit test and annual examination is convinced to the students and his/her parent. It leads to overall performance of a student and he/she is encouraged for higher education.

- Similarly teachers of the college help the poor and needy students to pay admission and annual examination fees.
- Uniform of the college is provided free of cost to economically backward male and female students.
- Medical help is provided to sick students and in the case of severe medical problem students are hospitalized in nearby private hospital.
- The principal of the college helped by giving a bicycle to poor and needy girl students Ku. Neha Ghanshyam Rewatkar B.A. I as a convenance.
- The college provides sports costumes to the students who participate in sports and game tournaments.
- Cash prizes are given to the students who secured highest marks in almost all the subjects by the faculty members.
- Extra classes are held almost of all subjects for weak students in classes.
- Various programmes are arranged by the college to choose best career options for the students.

4. Evidence of Success:-

In order to make child parent relationship among faculty and students the institute practice tutor-ward system so that one teacher along with director of physical education and librarian adopt 25 students for their overall

performance. A teacher may keep contact personally with allotted 25 students. The students of the college gave good response to this practice. It helps institution to maintain better attendance of students. Students feel homely atmosphere in the institution. Students are well counseled so that they may express their problems and hidden feelings regarding curricular, co-curricular activities and subject related activities without hesitation which may stand on hurdles in seeking their higher education.

5. Problem Encountered And Resource Required :-

Weak percentage of attendance is major problem encountered. As the college is situated in rural area, maximum students came from economically backward classes of the society. Therefore number of students have to seek their daily earning . Agriculture is a only source of employment so the students have to work in the field and come to the college. Most of the students are financially so weak that they have no enough money to secure admission in the college. In such case faculty members of the college support them financially to pay admission and examination fees.

The tutor –ward system promote students to secure admission and attendance and encourage them to participate in curricular, co-curriculum and extension activities of the college. It inspire students to be a knowledgeable and responsible citizen of the country.

6. Notes :-

Tutor –Ward system is the best practice being run in the college to overcome the academic, social and emotional problems of the students, coming in the way of higher education.

Until the problems of students are not understood and counsel them in a proper direction they do not find confidence and attracts towards higher studies.

Tutor-ward system promote and encourage students not only to secure admission and maintain attendance but to participate in almost all the activities conducted by the college and university. As a result colleges have given number of merit students and color coat holders at university level.

The healthy relations between teachers and students can raise confidence among students and turn them towards way of success in curricular, cultural and extension activities and finally inculcate the sense of moral responsibility to be a good citizen.

Students of the college have given good response to tutor-ward system hence it may be called, it is one of the best practice in the institution.

Dr. A.S.Dhobe

Best Practice II

Title Of The Practice:

“MAHILA JAGRUTI KARYAKRAM” (WOMEN AWARENESS PROGRAMME)

Our institution is aware of gender equality and women awareness with this intention college started Women Awareness programme in the college to equip the girls student with knowledge of fundamental rights. College provides equal opportunities for admission to male and female students still the admissions of girls students are more in number compare to male students therefore Home Economics Department conducts special activities to enhance the knowledge of girls students in the college under “Women Awareness Programmes”.

1. Goals And Objectives:-

- To aware the students about women problems in the society.
- To clear the nature of women problems.
- To provide various useful information of different fields to the girls student by the experts.
- To solve the problems of girls students and encourage them to find out solution of their problems through themselves.

- To provide guidance regarding health hygiene and nutritional values.
- To provide them guidance regarding self employment and Bachat Gat.
- To provide them legal knowledge of women's fundamental rights by the experts.
- To provide them the appropriate information of child development and nourishment.
- To provide the knowledge of problem regarding starvation and imperfect food.
- To provide the guidance related mother-infant death and its remedies.
- To aware them about gender equality.
- To make women socially strong and empower to face the Problems.

2. The Context :-

Today in the era of globalization, the leading roles are being performed by women in society and their contribution for the society is always appreciated because they have established that they can undertake all types of missions and work whether it is serving in army and police forces, being administrators and diplomats, managing multinational companies or small businesses, joining professions like medicine, engineering or teaching. On the other side it is equally true that women face numerous challenges and discrimination from social prejudices.

It is general observation that on the threshold of 21st century, the pitiable condition of women can be seen particularly in rural area, for ex. the women have no knowledge of health and hygiene, they are not aware of their fundamental rights, they are not aware about hygienic and nutritional food. As a result the problems like mother-child death, Physical weaknesses and various diseases are found in rural area that caused for higher death rate of the women. Similarly domestic problems like harassment, violence, abusements are seen at large in rural area that make them discourage and frustrate in life.

To raise confidence and increase sense of optimism in life of women, the Department of Home Economics started “Women awareness programme” and conducts various activities throughout the year.

3. The practice : -

Gender discrimination, female foeticide, blind beliefs, superstitious issues, starvation, nutritional value in food, increasing rate of mother-child death, illiteracy, harassment and domestic violence are some of the serious problems of women in the society.

With intention to aware women about their problems and motivate them to find out solution, college started “women Awareness programme” throughout the year. Orientation on “Women Related Problem and Remedies”, workshop on “Fundamental Rights of Women”, lectures on “Opportunities of Employments and Reservation of Women in Administrative Services”, workshop on “Challenges of Women and Legal Advice” lectures on “Health Hygiene and Importance of Literacy”, “Nutritional Values in Food and Awareness of Breast Feeding to Newborn Infants”, are some of the activates conducted through Women Awareness programme.

It is difficult to change the traditional way and mindset of illiterate people in rural society still “Women Awareness Programme” is small attempt of the college to aware girls students and women in rural society and equip them with knowledge to solve their problems and lead better life and prosperous future.

4. Evidence of Success :-

Number of programmes relating women awareness have been organized in the college since beginning. But the rate of women problem is increased in last some years. Therefore college constituted women development Cell and department of Home Economics made small attempt by conducting various activities under “Women Awareness Programme”.

The activities like rallies against Women Foeticide, rallies against Dowry Death, lectures on Gender Equality and various current burning issues

are organized, Guidance programme for women in Bachat-gat and women in adopted village are also arranged to update the knowledge.

Students of the college have given better response to Women Awareness Programme, students spontaneously come forward to organized various activities, almost all the girls students and their female parent participate in it. As a result small change in the local society can be seen that admission rate of female students is increased, girl students have joined police force and aware about employment, some girls students started business of beauty parlor, stitching ladies clothes and number of girls students are studying hard for competitive examination so that they could secure Job in government services. Hence it may be called that “Women Awareness Programme” inspired and motivated number of girls students to choose proper path of life is the success of this programme.

5. Problem Encountered And Resource Required :-

The less response of women from the rural area is the main problem encountered while implementing this practice. It is not easy to change the mindset of people in society which prejudiced women and given them secondary treatment. To overcome these traditional problem we need to think over and find out certain way out. Women awareness programme is long process, it will take time to make reformation in rural society but it is fruitful in the future.

The organization planning and financial budget is made by Department of Home Economics. If there is financial problem, college helps this activity with all optimum support to make the programme successful. There is good response to Women awareness programme therefore college decided to carry out this activity continuously in future.

6. Notes :-

In the age of globalization the women in rural area should be able to face their problems and lead better life in the society. But unfortunately situation of women seems backward and need proper guidance and encouragement for their progress. Numerous problems of women can be realized in the society, it is necessary that women in rural area should be aware for their fundamental rights of equal status, education, hygienic health,

nutritional food and legal knowledge. All of us are well known that some schemes for women are being run by Government of India but proper information and benefits of schemes do not reach up to rural women.

Therefore our college has made small attempt to provide all these information to women of rural area through “Women Awareness Programme” under this programme college makes continuous efforts sothat women in rural area should be well equipped with proper knowledge and aware for their rights.

The objective of “Women Awareness Programme” is to empower women to lead life with peace, pride and progress in society, is successfully achieved hence this programme may be called one of the best practice of the college.
